Skills

Express Js (3 year), MongoDB (3 year), Next Js (2 year), React Js **(3 year),** TypeScript, ES6, DOM manipulation, **Node Js**, Firebase, AWS (S3, Lambda, SES), **Github**, Html (3 year), CSS (3 year), Bootstrap (3 year), Javascript, Figma, Redis and many others.

Education

DEC 2017 - AUG 2021
SRN Adarsh College, **Bengaluru** – *BCA*

Learned C, C++, Java, Visual Basics, Electronics, Microprocessor 8085 etc

Experience

JUNE 2023 - PRESENT
Ripple Mind Private Limited, Location – *MERN Stack Developer*
Created a website by using Next Js, React JS, MongoDB, Express JS

- Converted PHP website to MERN Stack.
- Worked on **database migration**.
- **Created an efficient, high-performing bidding algorithm accepting only one bid from multiple submissions.**
- Deploying code
- Taking backups of mongodb, code etc.
- Accepting PR and assigning tasks and guiding juniors.

January 2021 - JUNE 2023

Edufu, Bengaluru – *MERN Stack Developer*

Created a website by using Next Js, React JS, MongoDB, Express JS, Firebase, AWS (S3, SES, Lambda).

I worked on the following functionality:

- **Creating UI by React JS as per Figma.**
- **Created User Authentication api with sub user access.** And implemented it in frontend by Redux.
- Created a flexible api by using MongoDB Aggregate function.
- **Video upload (and lambda cost optimization).**
- Image upload.
- Chat Functionality by Firebase and MongoDB.
- Payment Handling by payment gateway Cashfree.
- Invoice (PDF) generation by puppeteer.
- Implemented Push Notification by Firebase.

Personal Project: Git Repository

Local Shop Search

Local Shop Search is a website by which you can search for products near your home.

Tech Stack: React JS, MongoDB, Express.

I have used Next JS for creating frontends. Express js for creating backend. And Leaflet JS for displaying maps. MongoDb as a Database. Deployed at Netlify.
